## DETAILED ACTION

### *Priority*

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-13, 16 and 18-19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Todd-Reeve (US 3,868,835).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 14-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Todd-Reeve in view of Goettel (US 4,744,379). Todd-Reeve is considered to disclose the claimed invention, as rejected above, except for the claimed removable carrier and transporting device. Goettel, another drying system, is considered to disclose a removable carrier and transporting device at column 3 line 46 through column 4 line 53. It would have been obvious to one skilled in the art to combine the teachings of Todd-Reeve, with the removable carrier and transporting device, considered disclosed by Goettel, for the allowing movement of parts to be cleaned and dried to and from the drying system.

Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Todd-Reeve in view of Alexnian (US 5,320,121). Todd-Reeve is considered to disclose the claimed invention, as rejected above, except for the claimed substantial horizontal spray. Alexnian, another cleaning device, is considered to disclose a substantial horizontal spray at column 2 line 51 through column 4 line 60. It would have been obvious to one skilled in the art to combine the teachings of Todd-Reeve, with the substantial horizontal spray, considered disclosed by Alexnian, for the allowing an operator to direct spray onto a washing area.
